

4620 TURNBERRY LAKE DRIVE #104

If you are remotely considering purchasing a condo, then you should seriously consider this one! It was completely remodeled during the summer of 2019 and the owners had no plans of moving. Well they had an unexpected opportunity arise, and now their condo is available! Completely new kitchen with one level granite countertop, Ambiance kitchen cabinets, stainless steel appliances, and built in desk for workspace! The home feels like living at the beach and has new wood-look tile flooring in the common areas with new carpeting in the bedrooms. The master bath was also remodeled and now has two sinks in the master vanity along with granite countertops and cabinetry. This is fabulous!
