

This special carriage house site was chosen before the Sound was built and the utilities and road not yet installed. Its western facing location offers relaxed seating in the afternoon sun on the lanai. The California sunshades block the sun but not the view and the special micro gauge screens keep out the “no see-ums” in the evening. The lanai offers a view up the # 2 and # 3 fairways, and a full view of the green. One can view golfers putting , but is far enough away to not be bothered by the sound of carts or golfers’ voices.

Everything needed for the pool/beach includes an umbrella, wheeled cooler, large wheeled cart for your “stuff”, toys and radio. The master bedroom has a king size bed and the other two bedrooms have two king length twins. There are two twin aero beds with all necessary linens. There are hoses in the garage to wash your car and a huge upright freezer for any extra food storage.

Additional photos available.
